CloserStill

ABOUT CLOSERSTILL

CloserStill Media produces the most successful learning events in the world. With more than 30 years experience in the learning and higher education field, we have a proven track record of delivering outstanding events that support the learning community in every possible way.

Our market-leading events attract learning professionals with budgets from all over the globe. These decision makers are looking for the learning products and services your company is offering to help improve the work they do in the corporate, government, and academic sectors. They rely on CloserStill’s events to source their learning and development requirements and these events each generate a multi-million pound spend every year.

To exhibit or sponsor internationally at any or all of our events, call or email Jonquil Coy, who works across the portfolio to ensure that exhibitors maximise their impact and ROI at any event globally. Jonquil specialises in making the sometimes daunting prospect of exhibiting in another country painless and successful.

LEARNING TECHNOLOGIES SUMMER FORUM—LEARNING IN PRACTICE

There are two parts to this incredibly busy one-day event: a mini version of the main Learning Technologies show, limited to 50 of the leading industry suppliers and 40+ free seminar presentations, plus a top-level conference. The Summer Forum punches well above its weight, delivering a huge audience for an event of its size and providing fantastic value for exhibitors. It’s also an opportunity for learning & development professionals who couldn’t make it to the main show to engage with leading Learning Technologies exhibitors.

February 5 – 6, 2020 • Porte de Versaille, Paris, France

LEARNING TECHNOLOGIES FRANCE—THE #1 FRENCH DIGITAL LEARNING EVENT

Learning Technologies France is the stand out event in the francophone world and is the number one event in France since launch in 2001.

The exhibition features the entire French eLearning industry along with all the global leaders in eLearning content, platforms and tools.

The free conference, designed by Sally-Ann Moore, covers the needs of both enterprise workplace learning and adult education and is recognized as the highest quality free conference in the world of learning.

The event is supported by the French ministries for work and education, and digital transformation.

OEB brings you to the forefront of learning technology developments by pushing boundaries, challenging preconceptions, as well as being a catalyst for new ideas. The event has a unique, cross-sector focus, with participants from multinational companies to SMEs, from higher education and research institutions to schools, from ministries to local authorities and from global IGOs to local NGOs.
The most prestigious awards in the learning sector, the Learning Technologies Awards showcase the most recognisable, memorable, and life-changing learning worldwide. Independently judged to the most rigorous of standards, there is no greater recognition of hard work and innovation in the learning industry. Winning or being shortlisted for an award is an endorsement that sets the industry’s brightest minds apart from their competitors.
